

K-LOVE serves me and my family by providing safe, family-friendly programming for all of us to enjoy. It also provides encouragement through its messages and spiritual content that we cannot live without -- not even for a minute! If we were to lose K-LOVE, our community would be shorted a healthy, spiritually uplifting station that doesn't require censorship by the FCC or involved parents. Our children today need other options and influences to feed their minds and hearts. Please help keep safe radio options on the air for our families. In the end we will all benefit from the positive influences of such a station and the messages it brings to all who tune in. What a better way to spread peace, joy and love to the broader community. This station truly does serve the public.
